Entity Presentation (We are)

The Directorate-General for Communications Networks, Content and Technology (CNECT) develops and implements policies to make Europe fit for the digital age by investing in research, innovation, deployment and uptake of trustworthy and green digital technologies that improve our economy, competitiveness and people's lives.

The mission of the Safer Internet sector of CNECT.G.3 is to define and implement policies under the European Strategy for a Better Internet for Children ("BIK+") Strategy. This currently covers a mix of policies, support to legislation and programme/funding activities, notably:

- Implement and monitor the BIK+ Strategy;
- Support and complement the implementation of the Digital Services Act (DSA) provisions on protection of minors;
- Develop and implement the Action Plan against cyberbullying;
- Develop an EU approach to age verification;
- Coordinate the Safer Internet topic under the DIGITAL programme (the Safer Internet Centres network, the EU Better Internet for Kids platform and the IT system supporting cooperation by the hotlines for removing child sexual abuse material and the age verification solution);
- Support coordination and exchange of experiences with Member States through the Safer Internet expert group and through the WG on Protection on Minors of the DSA Board, particularly on age verification matters;
- Promote visibility of the BIK+ Strategy and cooperation between stakeholders at EU, national and international level through events such as the Safer Internet Forum and Safer Internet Day.

This dynamic and committed sector is based in Luxembourg with a staff of around 7. There is a strong team spirit and a friendly atmosphere.

The CNECT.G.3 unit (Accessibility, Multilingualism and Safer Internet) is also responsible for digital accessibility for persons with disabilities ('Web Accessibility Directive'), for research and deployment of language technologies. CNECT.G.3 works as well to increase girls' and women's participation in ICT studies and professions. It aims to support the digital decade by making life online more accessible, multilingual and inclusive, as well as better for children.

Job Presentation (We propose)

Unit CNECT.G.3 offers an interesting and challenging position as a seconded national expert in the Safer Internet sector. - Strategic thinking and policy development in the field of Safer Internet, in particular supporting the implementation of the Better internet for kids strategy (BIK+);
- Contributing to the preparation and implementation of the Action plan against cyberbullying;
- Contributing to implementation of DSA provisions on the protection of minors;
- Contributing to briefings and speeches for the hierarchy and the Commissioners, drafting replies to Parliamentary questions and queries from citizens on this topic.
- Maintaining and sharing expert and up-to-date knowledge of developments in this area of BIK by legal analysis, liaising with stakeholders, contributing and participating in key conferences, seminars and networks.
